Rev. A. A. Phelps

Dear Sir

Your letter of 11th. June came seasonably to hand, but absence from the city, has been occasion of my delay in answering it.

We think well of your proposal so far as profits are concerned & have no other objection than the general one we invariably make to all periodicals & pamphlets of whatever name. We have on this subject, only one opinion as to the pecuniary considerations & presume your Society, or some house more in the way of publishing pamphlets than we are, would find it for their interest to embark in the enterprise. We are obliged to you for making us the offer, and it would give us inexpressible pleasure, if while obliging ourselves, we could also promote your interests — but must in this case forgo the pleasure of both —

Very Respectfully
Yours

C. A. Lord
